***The time has come to explore Portugal anew ...
Now is the time for Sketch Tour Portugal Reload.***

VisitPortugal challenged ten urban sketchers from Portugal, ten from abroad, and eleven Portuguese-speaking authors to produce drawings and texts portraying Portugal and its tourist destinations: the artistic response of those who sketch and those who share their thoughts through the medium of the written word to the experiences that Portuguese culture has to offer.

We matched the expertise of *VisitPortugal* with the sensibility of our urban sketchers. In search of inspiration, they embarked on a journey around the regions of Portugal looking for a different perspective on the country.

Their quest was to discover the essence of the people: their genuine nature, and the destiny of the country. In the sketches and texts they have produced, conjuring up images in watercolour and words, they reveal the real Portugal through a process of artistic symbiosis, enabling a new richer tourist experience.

Encounter Portugal through the artistry of those who feel the country, and experience it anew.

Editorial Note

This book has three editions:
Portuguese edition (original)
English edition (translation by Michael W. Lewis)
French edition (translation by Marie Vieira)

The names of the tourist regions of Portugal which appear in this book are those which have been officially designated by Turismo de Portugal and adopted by the regional tourist boards, and thus have not been altered.
